

# IFMSA

## PROFESSIONAL EXCHANGE OUTGOING

First Batch Extended

# ANNOUNCEMENT

2024/2025

# PREFACE

from National Exchange Officer for Outgoing

**Standing Committee on Professional Exchange (SCOPE)** is one of the oldest standing committees in the **International Federation of Medical Students' Association (IFMSA)**. Established in 1951, SCOPE has worked to facilitate professional exchange for medical students all around the world. In Indonesia, SCOPE IFMSA Exchange is facilitated by **Center for Indonesian Medical Student's Activities (CIMSAs)**.

Under the management of the National Exchange Committee, led by National Exchange Officers, we are aiming to develop SCOPE CIMSAs Indonesia to be the largest exchange program for medical students in Indonesia. We facilitate up to **250 medical students** to go for their clinical exchange abroad annually.

To send Indonesian medical students abroad as our participants, we select those who have both **strong motivation** and interest, along with the **adequate amount of ability and knowledge** to help them grow by having clinical experience in various countries. We also provide them to facilitate other stuff including administration and other processes needed to go for exchange according to each country. This is to ensure that their exchange will go smoothly and they will get the most out of their exchange experience.

Surely, all of the applicants have gone through the thorough selection process. Hereby, I will announce those who are selected. We hope everyone who gets this golden opportunity may **use this chance wisely**. Do remember, as outgoing students you will bear the weight of our beloved country Indonesia, your university, and your own reputation. So, please behave accordingly and be respectable representatives. Please respect the IFMSA and the host country regulation, be punctual as tardiness might harm the sustainability of your exchange.

We hope you could use this opportunity to learn new things, culture, meet new friends, and develop yourself as a better human resource - Indonesia's future health provider, for the improvement of our nation's healthcare system. **Empower yourself to Improve Nation's Health.**

**Once again, congratulations!**
